Members of the Board of Trustees  
Warrenville Fire Protection District  
Warrenville, IL 60555

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the Warrenville Fire Protection District (WFPD), Warrenville, Illinois for the fiscal year ended April 30, 2024.

The District is required to issue annually a report of its financial position and activity presented in conformance with generally accepted accounting principles (GAAP). This report is presented using the financial reporting model outlined by the Governmental Accounting Standards Board (GASB). Management assumes full responsibility for the completeness and reliability of all the information presented in this report and asserts that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

To provide a reasonable basis for making its representations, management has established a comprehensive internal control framework. This framework is designed to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition and that accounting transactions are executed in accordance with management's authorization and properly recorded so that the financial statements can be prepared in conformity with generally accepted accounting principles (GAAP). The objective of the internal control framework is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

State statutes require an annual audit of the financial records and transactions of the District by independent certified public accountants selected by the Board of Trustees. The Board of Trustees selected the accounting firm of Lauterbach & Amen, LLP. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified or clean opinion that the WFPD's basic financial statements for the fiscal year ended April 30, 2024, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report. Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A is also intended to disclose any known significant events or decisions that affect the financial condition of the District. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **DISTRICT PROFILE**

The Warrenville Fire Protection District (WFPD) was organized in 1939 under the general laws of the State of Illinois providing for the organization and operation of fire protection districts and is now operating under the provisions of the Fire Protection District Act of the State of Illinois, as amended (70 ILCS 705/0.01 et seq.).

WFPD is comprised of residential, commercial, industrial, and healthcare occupancies in the west central portion of DuPage County. Located approximately thirty-one miles west of Chicago's Central Business District, the WFPD covers a population of approximately 20,000 people and an area of approximately 18 square miles including the City of Warrenville and some unincorporated areas.

WFPD provides a full range of services to its residents, as well as non-residents. These services include fire suppression services, emergency medical services, hazardous material response, underwater rescue and recovery, fire prevention and public education, special technical rescue, and community events. Some of the programs offered to the public include CPR/AED training, fire extinguisher training, school safety talks, Hot Shots program, station tours, touch-a-truck events, block parties, and more. In addition to general operations, the District exercises oversight of the Firefighters' Pension Fund and Foreign Fire Insurance Tax Board; therefore, these activities are included in the reporting entity. Warrenville Fire Protection District is also a member of Mutual Aid Box Alarm System (MABAS) Division 16, which consists of eight agencies that provide mutual aid to each other in the form of apparatus and manpower during emergencies that overload the original agency.

WFPD operates under an elected Board of Trustees form of government. The Board of Trustees is comprised of five members who are responsible, among other things, for determining policies, passing resolutions and ordinances, adopting the annual budget, and appointing committees. The Fire Chief is appointed by the Board of Trustees and is responsible for the daily operations and management of the District.

The annual budget serves as the foundation for the District's financial planning and control. State law requires that a Fire Protection District adopt a final budget by no later than the end of the first quarter of the new fiscal year. The WFPD budget is prepared by fund and function, but the format of the budget provides for a departmental budget with line item supplemental backup. The legal level of budgetary control is the fund level.

A budget to actual comparison is provided in this report for the General Fund. The comparison is presented as required supplementary information. For governmental funds other than the General Fund and major Special Revenue Funds, this comparison is presented in the governmental fund subsection of this report.

## **ECONOMIC CONDITION AND OUTLOOK**

WFPD's number one priority remains life safety for our citizens and our personnel. We have a high volume of Emergency Medical Service (EMS) activity and all other areas of our operations are divided between fire/suppression response along with fire alarm response, plus public education. It is projected that call volume will continue to trend higher each year. As call volume increases, the District continues to increase staffing levels to correspond with community expectations for service. As ambulance demand increases, the District has realized an increase in the revenue generated by ambulance billing fees.

The support of the taxpayers enables the District to charge both a corporate tax rate and an emergency medical services tax rate, in addition to the levies for audit, tort liability insurance, and workers compensation. WFPD is pleased to report that in tax year 2022, the District saw a 5.2% increase in the assessed value. It is hoped this cycle of increases in EAV and new construction will continue into the future. The amount of collected property taxes continues to be close to 100% of the extension. WFPD's economic outlook continues to be acceptable and allows the District to at least maintain current core service levels. The District's potential for residential and commercial growth should provide for a growing community in the foreseeable future.

## **LONG-TERM FINANCIAL PLANNING**

WFPD maintains a 15-year capital improvement/replacement schedule that aids in keeping buildings and equipment up to date and modern. The District made improvements in fiscal year 2023-2024, including a server replacement and cardiac monitor. The Capital Improvement Fund is funded and/or has funding scheduled over the next 15 years. Solid budget management by the District has allowed systematic transfers into the Capital Fund, including additional transfers of excess funds when available. At this time, the capital expenditures anticipated in the next 5 years includes vehicle replacements, cardiac monitor replacements, SCBA equipment replacements, and station improvement projects. The District uses GFOA best practice risk analysis to maintain our fund balance or reserves at levels sustainable for the long-term.

The District has financial policies in place to promote fiscal stability. In general, all supplies, materials, equipment and contractual/professional services required for operational efficiency have been included in the annual budget. Purchases during the fiscal year shall proceed in accordance with the purchasing procedures upon approval of the annual budget by the Board of Trustees. The District procurement policy shall always be consistent with all State statutes pertaining to competitive bidding. WFPD continues to end the fiscal year with an overall savings due to the revenue higher than budgeted and the expenses less than budgeted.

The Fire Chief and Assistant Chief are responsible for approving the purchase of items that have been specifically identified in the budget or do not exceed the budget line item. The Fire Chief will provide the Board of Trustees with advanced notice of all purchases that exceed \$5,000 prior to the items being purchased. It is anticipated that such notice would be provided at a regular Board meeting and identify items to be purchased over the next thirty days. In the event of a purchase that exceeds \$25,000, the Fire Chief shall provide the Board of Trustees with the following information to obtain Board approval: Type of bid process used, the names of the vendors bidding and the cost proposed, the vendor proposed to be selected and why, and any other pertinent information.

The investment policy emphasizes safety of principle and maintenance of purchasing power as the foremost objectives. The District recently opened an account with The Illinois Funds as a means to increase interest income. This move forecasts to be beneficial in terms of raising revenue in keeping with the investment laws of the State of Illinois. Safety, security, and rate of return continue to be the primary goals of the investment program.

## **MAJOR INITIATIVES AND ACHIEVEMENTS FOR FISCAL YEAR 2023-2024**

Staffing and associated costs continues to be the largest operating expenditure for the District. The collective bargaining agreement with the Warrenville Professional Firefighters Association Local 5036 was renegotiated effective May 1, 2023, and continues through April 30, 2026. The nationwide candidate pool for full-time career firefighters/paramedics has been shrinking, making it difficult to uphold minimum staffing requirements.

WFPD will continue to maintain its one fire station by way of general maintenance and replacement schedule.

The District continues to keep a watchful eye over the budget, levy, and all expenses while balancing commitments of employment, pensions, insurances, and maintaining a solid financial position to cover all operational expenses for years to come.

WFPD continues to receive favorable renewal rates for both liability and workers compensation insurance. This reflects the mechanisms in place that ensure a safe working environment. The District maintains an active Health and Safety Committee that makes recommendations and reviews incidents as they occur.

While the District remains mostly dependent on property tax revenue, WFPD has diversified its revenue sources through fees such as ambulance billing, fire recovery, and fire prevention and public education. WFPD also receives additional Medicaid revenues through the State of Illinois GEMT program. During the fiscal year 2023-2024, the District received grants totaling \$13,812 from Illinois American Water, Illinois Public Risk Fund, and Enbridge.

WFPD is concerned about the tough economic times and is aware of its taxpayers' burden of overall taxes. The Board of Trustees keeps this in mind with a continued conservative approach to spending, while promoting safety through regular training and maintaining staffing levels. The Board of Trustees continues the conservative controls of the finances using additional projections of future revenue and expenses over a three-year outlook.

WFPD purchased and installed pre-plan software, which provides a digital platform to store and access critical information about buildings and properties in our jurisdiction. This information includes building layouts, hazardous materials, utility shut-offs, key contacts, and other important details that can help firefighters respond more effectively and safely to emergencies. The software also helps fire departments with pre-incident planning, training exercises, and collaboration with other emergency responders.

WFPD created a strategic plan to set clear goals and objectives in order to provide a path for achieving success and measuring progress. It will help the District prioritize resources, such as personnel, equipment, and budget, to ensure that they are being used effectively and efficiently to meet the goals.

The strategic plan helps identify potential risks, develop strategies to mitigate risks, and assists in tracking progress towards achieving goals. This will help the District identify areas for improvement and be accountable for the results.

### **FUTURE INITIATIVES AND ACHIEVEMENTS**

Strive for financial stability, while assessing all necessary programs, reviewing investments and policies, and completing capital improvements and purchases without the need to take on any debt. In addition, the District will aggressively reduce any existing debt in an effort to become debt free.

Consistently fund the firefighters' pension fund as well as the civilian employee Illinois Municipal Retirement Fund (IMRF) pension fund.

Continue efforts to prevent fires and loss of life and property in the District, with a continued emphasis on firefighter health, safety, and fitness.

Annually achieve the Certificate of Achievement for Excellence in Financial Reporting (COA) program award through the Government Finance Officers Association (GFOA).

Maintain goal of 40% of General Fund operating expenditures in reserves.

Continue exploring opportunities for cooperation and/or funding with other taxing bodies.

Begin to implement objectives and goals from the Strategic Plan.

### **AWARDS AND ACKNOWLEDGEMENTS**

The timely preparation of the ACFR was made possible by the efficient and dedicated services of our administrative staff and financial analyst. The District sincerely appreciates and acknowledges the support and direction provided by the accounting firm of Lauterbach & Amen, LLP in preparing the District's ACFR.

Additional appreciation is given to the Board of Trustees for their leadership and support in planning and conducting the financial operations of the District in a responsible manner.

Respectfully submitted,

*Andrew Dina*

Andrew Dina, Fire Chief  
Warrenville Fire Protection District

## **INDEPENDENT AUDITORS' REPORT**

## **INDEPENDENT AUDITOR'S REPORT**

August 8, 2024

Members of the Board of Trustees  
Warrenville Fire Protection District  
Warrenville, Illinois

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Warrenville Fire Protection District (the District), Illinois, as of and for the year ended April 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Warrenville Fire Protection District, Illinois as of April 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and supplementary pension and other post-employment benefit (OPEB) schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Warrenville Fire Protection District, Illinois basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor’s report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

*Lauterbach & Amen, LLP*  
LAUTERBACH & AMEN, LLP

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Management's Discussion and Analysis April 30, 2024

---

Our discussion and analysis of the Warrenville Fire Protection District (the District), Illinois' financial performance provides an overview of the District's financial activities for the fiscal year ended April 30, 2024. Please read it in conjunction with the transmittal letter, which can be found in the introductory section of this report and the District's financial statements, which can be found in the basic financial statements section of this report.

### FINANCIAL HIGHLIGHTS

- The District's total assets/deferred outflows exceeded its total liabilities/deferred inflows at the close of the most recent fiscal year by \$4,495,429.
- The District's total net position increased \$946,259 resulting in ending net position of \$4,495,429.
- Property taxes collected were \$4,395,407 compared to the prior year of \$4,143,036 for an increase of \$252,371.
- At April 30, 2024, the District's governmental funds reported combined ending fund balances of \$5,634,616 an increase of \$1,149,793 from the prior year.

### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. For governmental activities, fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

The government-wide financial statements provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Management's Discussion and Analysis April 30, 2024

---

### USING THIS ANNUAL REPORT – Continued

The District's governmental activities are supported by taxes and other general revenues. All governmental activities are reported as public safety activities.

### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Capital Projects Fund, both considered major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting use for fiduciary funds is much like that used for proprietary funds.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Management's Discussion and Analysis April 30, 2024

---

### USING THIS ANNUAL REPORT – Continued

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$4,495,429 as of April 30, 2024. Total revenues were \$5,909,553, while total expenses were \$4,963,294.

The largest portion of the District's net position, \$1,773,855, reflects its investment in capital assets (for example, land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt (if applicable) must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$183,206, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors. This unrestricted net position is \$2,538,368.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Management's Discussion and Analysis April 30, 2024

---

### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS – Continued

#### Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental funds reported ending fund balances of \$5,634,616. Of this total, \$36,185 is nonspendable, \$161,520 is restricted, \$3,423,852 is assigned and \$2,013,0591 is unassigned.

The General Fund is the primary operating fund of the District. The fund balance of the General Fund at April 30, 2024 is \$2,027,558. This represents 41.0% of the current year budgeted expenditures. The decrease in fund balance in the General Fund of \$1,089,942 was due to less additional grant revenue than anticipated and expenditures less than the budget and included a transfer of \$2,350,000 to the Capital Projects Fund.

The Capital Projects Fund reported an increase in fund balance of \$2,187,406. This surplus is mainly due to higher interest revenue and the transfer in of \$2,350,000 from the General Fund.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The District Board did not adopt any amendments to the General Fund budget once it was approved. Actual revenues of \$5,592,935 were \$345,948 more than budgeted revenues of \$5,246,987. The increase is due to a higher revenue in the charges of services and the interest which are \$295,725 and \$47,784 higher than the budgeted amount of \$986,000 and \$13,000. Actual expenditures of \$4,332,877 were \$616,318 lower than budgeted expenditures of \$4,949,195. There were decreases in the salaries and related, contractual services, and commodities expenditures that contributed to lower budgeted expenditures for the current fiscal year.

#### DEBT ADMINISTRATION

During the year ending April 30, 2020, the District issued an installment contract for \$580,443 for the purchase of a Pierce Enforcer pumper vehicle. This is being repaid in annual installments in fiscal years 2021-2025. For the year ending April 30, 2024, the District retired \$121,009 of the installment contract resulting in an ending balance of \$123,433.

Additional information on the District's long-term debt can be found in Note 3 of this report.

## Management's Discussion and Analysis April 30, 2024

---

### CAPITAL ASSETS

The District's investment in capital assets for its governmental activities as of April 30, 2024 was \$1,897,288 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, equipment, and vehicles.

This year's major addition included:

Construction in Progress	\$	6,626
Equipment		<u>47,264</u>
		<u>53,890</u>

Additional information on the District's capital assets can be found in note 3 of this report.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's elected officials considered many factors when setting the fiscal-year 2025 budget, tax rates, and fees that will be charged for its governmental activities, including the change in the CPI, unemployment rates and other economic factors.

### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Warrenville Fire Protection District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Warrenville Fire Protection District's Fire Chief, 3S472 Batavia Road, Warrenville, IL 60555.

## **BASIC FINANCIAL STATEMENTS**

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

Fiduciary Fund

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The government-wide financial statements of the Warrenville Fire Protection District (the District), Illinois are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the District's accounting policies established in GAAP and used by the District are described below.

#### REPORTING ENTITY

The District is a municipal corporation governed by a five-member Board of Trustees. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is both legally and substantively separate from the government. Management has determined that there is one fiduciary component unit that is required to be included in the financial statements of the District as pension trust fund and there are no discretely component units to include in the reporting entity.

#### Firefighters' Pension Employees Retirement System

The District sworn firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of those employees and is governed by a five-member pension board, with two members appointed by the District President, two elected from active participants of the Fund, and one elected from the retired members of the Fund. The participants are required to contribute a percentage of salary as established by state statute and the District is obligated to fund all remaining FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the District is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the District, the FPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the District's sworn firefighters. The FPERS is reported as a fiduciary fund, and specifically a pension trust fund, due to the fiduciary responsibility exercised over the FPERS.

#### BASIS OF PRESENTATION

##### Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as the governmental type. The District's public safety and general administrative services are classified as governmental activities.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### BASIS OF PRESENTATION – Continued

##### Government-Wide Statements – Continued

In the government-wide Statement of Net Position, the governmental activities are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets, restricted and unrestricted.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

##### Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures. Funds are organized into two major categories: governmental and fiduciary.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

##### Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The District maintains the following governmental funds:

*General Fund* is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

*Special Revenue Funds* are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains four nonmajor special revenue funds.

*Capital Projects Funds* are used to accounts for financial resources to be used for the acquisition or construction of major capital facilities. The Capital Projects Fund is a major fund and accounts for revenues and expenditures relative to the construction of capital improvements and equipment replacement.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### BASIS OF PRESENTATION – Continued

##### Fund Financial Statements – Continued

##### Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to full-accrual basis.

*Pension Trust Funds* are used to account for assets held in a trustee capacity for pension benefit payments. The Firefighters' Pension Fund accounts for the accumulation of resources to be used for disability and retirement annuity payments to employees covered by the plan. Financing is provided by employee contributions, the annual property tax levy and investment income.

Since by definition these assets are being held for the benefit of a third party (pension participants) and cannot be used to address activities or obligations of the District, these funds are not incorporated into the government-wide statements.

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

##### Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All pension trust funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Pension trust fund equity is classified as net position.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

##### Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred outflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.”

Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All pension trust funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

#### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

##### Cash and Investments

For the purpose of the Statement of Net Position, cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS**

**Notes to the Financial Statements  
April 30, 2024**

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**ASSETS/DEFERRED OUTLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued**

**Receivables**

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes and grants.

**Prepays**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements. Prepays are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased.

**Interfund Receivables, Payables and Activity**

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

**Capital Assets**

Capital assets purchased or acquired with an original cost of \$5,000 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings	40 Years
Equipment	7 - 10 Years
Vehicles	5 - 30 Years

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

##### Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

##### Compensated Absences

The District accrues accumulated unpaid sick time and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as “terminal leave” prior to retirement.

All sick time pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

##### Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

In the fund financial statements, governmental fund types recognize debt issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

##### Net Position

In the government-wide financial statements, equity is classified as net position and displayed as follows:

Net Investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### ASSETS/DEFERRED OUTLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

##### Net Position – Continued

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position that do not meet the definition of “restricted” or “investment in capital assets.”

##### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### BUDGETARY INFORMATION

The District follows these procedures in establishing the budgetary data reflected in the financial statements;

- Prior to April 1, the Fire Chief submits to the Board of Trustees (the Board) a tentative operating budget for the fiscal year commencing the following May 1. The operating budget includes expenditures and the means of financing them.
- The working budget is then approved by the Board and adopted by May 1. The Board holds public hearings to solicit comments and may add to, subtract from, or change appropriations, but may not change the form of the budget.
- Prior to August 31, the final budget is passed by an appropriation ordinance. The tax levy ordinance is filed with the County Clerk by the last Tuesday in December to obtain tax revenue.
- The Board must approve all formal appropriation transfers. Any increases to the final budget require a public hearing before the Board approval. There is no budget amendment for the current year.

**NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – Continued**

**BUDGETARY INFORMATION – Continued**

- The Fire Chief can approve expenditures that exceed any line item of departmental expenditures of a fund as long as the expenditures do not exceed the appropriation. Thus, the legal level of budgetary control is determined by fund.
- The legal budgetary authority lapses at the end of the fiscal year.
- The budget amounts shown in the financial statements are those originally adopted as there were several amendments during the fiscal year. As provided by Illinois Budget Law (50ILCS 330) the District may make various line item transfers within the General Fund.

**EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUND**

The following fund had an excess of actual expenditures over budget for the fiscal year:

Fund	Excess
Foreign Fire	\$ 7,989

**NOTE 3 – DETAIL NOTES ON ALL FUNDS**

**DEPOSITS AND INVESTMENTS**

Permitted Deposits and Investments – Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, and commercial paper rated within the three highest classifications by at least two standard rating services.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer’s Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, which is the price for which the investment could be sold.

**District**

*Deposits and Investments.* At year-end, the carrying amount of the District’s deposits totaled \$5,194,729 and the bank balances totaled \$5,225,848. The District also has \$475,384 invested in the Illinois Funds at year-end, which is measured at the net asset value per share as determined by the pool.

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### DEPOSITS AND INVESTMENTS – Continued

##### District – Continued

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District structures the investment portfolio so that securities mature to meet cash requirements for ongoing operation, thereby avoiding the need to see securities on the open market prior to maturity, and by investing operating funds primarily in shorter-term securities. The District's investment in Illinois Funds has an average maturity of less than one year.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy mitigates credit risk by limiting investments to the safest type of securities, pre-qualifying the financial institution, broker/dealers, intermediaries, and advisors with which an entity will do business, and diversifying the investment portfolio so that potential losses on individual securities will be minimized. At year-end, the District's investment in the Illinois Funds was rated AAmmf by Fitch.

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral for all bank balances in excess of the federal depository insurance, at an amount of not less than 110% of the fair market value of the funds secured. At year-end, all of the bank balance of the deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy does not address custodial credit risk for investments.

*Concentration of Credit Risk.* This is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy requires investing funds for a specific maturity date that is required for either cash flow purposes or for conformance to maturity guidelines, in such instruments which would be most advantageous under prevailing market conditions. Records will be kept of all investments purchases or sold by the District in compliance with statutes. At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### DEPOSITS AND INVESTMENTS – Continued

##### Firefighters' Pension Fund

The Illinois Firefighters' Pension Investment Fund (IFPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate firefighter pension funds. IFPIF was created by Public Act 101-0610, and codified within the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IFPIF by Illinois suburban and downstate firefighter pension funds is mandatory. Investments of the Fund are combined in a commingled external investment pool and held by IFPIF. A schedule of investment expenses is included in IFPIF's annual report. For additional information on IFPIF's investments, please refer to their annual comprehensive financial report, which can be obtained from IFPIF at 1919 South Highland Avenue, Building A, Suite 237, Lombard, IL 60148 or at [www.ifpif.org](http://www.ifpif.org).

*Deposits.* The Fund retains all its available cash with one financial institution. Available cash is determined to be that amount which is required for the current expenditures of the Fund. The excess of available cash is required to be transferred to IFPIF for purposes of the long-term investment for the Fund. At year-end, the carrying amount of the Fund's cash on hand totaled \$113,243 and the bank balances totaled \$114,948.

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy states that all deposits in excess of FDIC insurable limits be secured by collateral in order to protect deposits from default. At year-end, the entire carrying amount of the bank balance of deposits is covered by federal depository or equivalent insurance.

*Investments.* At year-end the Fund has \$7,097,206 invested in IFPIF. The pooled investments consist of the investments as noted in the target allocation table available at [www.ifpif.org](http://www.ifpif.org). Investments in IFPIF are valued at IFPIF's share price, which is the price the investment could be sold. There are no unfunded commitments at year-end. The plan may redeem shares by giving notice by 5:00 pm central time on the 1st of each month. Requests properly submitted on or before the 1st of each month will be processed for redemption by the 14th of the month. Expedited redemptions may be processed at the sole discretion of IFPIF.

*Investment Policy.* IFPIF's current investment policy was adopted by the Board of Trustees on June 17, 2022. IFPIF is authorized to invest in all investments allowed by Illinois Compiled Statutes (ILCS). The IFPIF shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 4 of the Illinois Pension Code.

**WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS**

**Notes to the Financial Statements  
April 30, 2024**

---

**NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued**

**DEPOSITS AND INVESTMENTS – Continued**

**Rate of Return**

For the year ended April 30, 2024, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 1.71%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**PROPERTY TAXES**

Property taxes for 2023 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and October 1 during the following year. The County collects such taxes and remits them periodically. Based upon collection histories, the District has provided an allowance for uncollectible property taxes equivalent to 1% of the current year’s levy. All uncollected taxes relating to prior years’ levies have been written off.

**INTERFUND BALANCES**

Interfund balances are advances in anticipation of receipts. The composition of interfund balances as of the date of this report, is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Nonmajor Governmental	<u>\$ 14,499</u>

**INTERFUND TRANSFERS**

Transfers are used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers for the year consisted of the following:

<u>Transfer In</u>	<u>Transfer Out</u>	<u>Amount</u>
Capital Projects	General	<u>\$ 2,350,000</u>

**WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS**

**Notes to the Financial Statements  
April 30, 2024**

**NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued**

**CAPITAL ASSETS**

Capital asset activity for the year was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
<b>Nondepreciable Capital Assets</b>				
Land	\$ 225,270	-	-	225,270
Constuction In Progress	18,190	6,626	24,816	-
	<u>243,460</u>	<u>6,626</u>	<u>24,816</u>	<u>225,270</u>
<b>Depreciable Capital Assets</b>				
Buildings	2,160,451	-	-	2,160,451
Equipment	1,547,917	72,080	-	1,619,997
Vehicles	1,921,737	-	-	1,921,737
	<u>5,630,105</u>	<u>72,080</u>	<u>-</u>	<u>5,702,185</u>
<b>Less Accumulated Depreciation</b>				
Buildings	1,344,999	65,612	-	1,410,611
Equipment	1,353,989	40,884	-	1,394,873
Vehicles	1,138,591	86,092	-	1,224,683
	<u>3,837,579</u>	<u>192,588</u>	<u>-</u>	<u>4,030,167</u>
Total Net Depreciable Capital Assets	<u>1,792,526</u>	<u>(120,508)</u>	<u>-</u>	<u>1,672,018</u>
Total Net Capital Assets	<u>2,035,986</u>	<u>(113,882)</u>	<u>24,816</u>	<u>1,897,288</u>

Depreciation expense of \$192,588 was charged to the public safety function.

**LONG-TERM DEBT**

**Installment Contracts**

The District has established installment contracts payable as follows:

Issue	Beginning Balances	Issuances	Retirements	Ending Balances
\$580,443 Installment Contract of 2019 - Due in annual installments of \$130,713 including interest at 3.97% through November 1, 2024.	\$ 244,442	-	121,009	123,433

**WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS**

**Notes to the Financial Statements  
April 30, 2024**

**NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued**

**LONG-TERM DEBT – Continued**

**Long-Term Liability Activity**

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balances	Additions	Deductions	Ending Balances	Amounts Due within One Year
Compensated Absences	\$ 64,794	881	1,762	63,913	12,783
Net Pension Liability					
IMRF	43,086	-	11,234	31,852	-
Firefighters' Pension	3,101,873	-	262,394	2,839,479	-
Total OPEB Liability - RBP	321,587	51,417	-	373,004	-
Installment Contract Payable	244,442	-	121,009	123,433	123,433
<b>Totals</b>	<b>3,775,782</b>	<b>52,298</b>	<b>396,399</b>	<b>3,431,681</b>	<b>136,216</b>

The compensated absences, the net pension liabilities for IMRF and the Firefighter’s Pension, and the total OPEB liability are liquidated by the General Fund. The installment contract payable is being paid from the Capital Projects Fund.

**Debt Service Requirements to Maturity**

The annual debt service requirements to maturity, including principal and interest, are as follows:

Fiscal Year	Installment Contract	
	Principal	Interest
2025	\$ 123,433	7,280

**LONG-TERM DEBT – Continued**

**Legal Debt Margin**

Chapter 70, Section 705/12 of the Illinois Compiled Statutes provides “Any fire protection district incorporated under this Act may borrow money for corporate purposes and may issue bonds therefor, but shall not become indebted in any manner, or for any purpose, to an amount in the aggregate to exceed 5.75% on the valuation of taxable property therein to be ascertained by the last assessment for State and County taxes previous to the incurring of such indebtedness or until January 1, 1983, if greater, the sum that is produced by multiplying the district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979.”

Assessed Valuation - 2023	<u>\$ 721,175,514</u>
Legal Debt Limit	
5.75% of Equalized Assessed Value	41,467,592
Amount of Debt Applicable to Limit	
None	<u>-</u>
Legal Debt Margin	<u>41,467,592</u>

**NET POSITION CLASSIFICATIONS**

Net investment in capital assets was comprised of the following as of April 30, 2024:

Governmental Activities	
Capital Assets - Net of Accumulated Depreciation	\$ 1,897,288
Less Capital Related Debt:	
Installment Contract of 2019	<u>(123,433)</u>
Net Investment in Capital Assets	<u>1,773,855</u>

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance.* Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

*Restricted Fund Balance.* Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance.* Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

*Assigned Fund Balance.* Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance.* Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy.* The District's policy manual states that the General Fund should maintain a minimum fund balance equal to 10% to 40% of budgeted operating expenditures.

Foreign Fire Insurance Tax	-	-	64,660	64,660
	-	-	161,520	161,520
Assigned				
Capital Projects	-	3,423,852	-	3,423,852
Unassigned	2,027,558	-	(14,499)	2,013,059
Total Fund Balances	2,027,558	3,423,852	183,206	5,634,616

**NOTE 4 – OTHER INFORMATION**

**RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the District's employees. These risks are provided for through insurance from private insurance companies. The District currently reports all its risk management activities in the General Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

# WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS

## Notes to the Financial Statements April 30, 2024

---

---

### NOTE 4 – OTHER INFORMATION – Continued

#### CONTINGENT LIABILITIES

##### Litigation

From time to time, the District is party to various pending claims and legal proceedings with respect to employment, civil rights, property taxes and other matters. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial position or results of operations.

##### Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS

The District contributes to two defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system and the Firefighters' Pension Plan that is a single-employer pension plan. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at [www.imrf.org](http://www.imrf.org). The benefit, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

The District recognized aggregate pension items relating to the two pension plans as follows:

	Pension Expenses/ (Revenues)	Net Pension Liabilities	Deferred Outflows	Deferred Inflows
IMRF	\$ (7,418)	31,852	22,714	47,381
Firefighters' Pension	684,732	2,839,479	760,851	340,978
	677,314	2,871,331	783,565	388,359

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 4 – OTHER INFORMATION – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

##### Illinois Municipal Retirement Fund (IMRF)

##### Plan Descriptions

*Plan Administration.* All employees (other than those covered by the Firefighters' Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable. *Benefits Provided.* IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

**Plan Descriptions – Continued**

*Plan Membership.* As of December 31, 2023, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	2
Inactive Plan Members Entitled to but not yet Receiving Benefits	-
Active Plan Members	<u>3</u>
Total	<u><u>5</u></u>

*Contributions.* As set by statute, the District’s Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2024, the District’s contribution was 8.40% of covered payroll.

*Net Pension Liability.* The District’s net pension liability was measured as of December 31, 2023. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

*Actuarial Assumptions.* The total pension liability was determined by an actuarial valuation performed, as of December 31, 2023, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

## Notes to the Financial Statements April 30, 2024

---

### NOTE 4 – OTHER INFORMATION – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

##### Illinois Municipal Retirement Fund (IMRF) – Continued

##### Plan Descriptions – Continued

*Actuarial Assumptions – Continued.* For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	25.50%	4.90%
Domestic Equities	35.50%	6.50%
International Equities	18.00%	7.60%
Real Estate	10.50%	6.20%
Blended	9.50%	6.25% - 9.90%
Cash and Cash Equivalents	1.00%	4.00%

April 30, 2024**

---

**NOTE 4 – OTHER INFORMATION – Continued**

**EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued**

**Illinois Municipal Retirement Fund (IMRF) – Continued**

**Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund’s fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

**Discount Rate Sensitivity**

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate as well as what the District’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net Pension Liability	\$ 52,504	31,852	14,828

April 30, 2024**

---

**NOTE 4 – OTHER INFORMATION – Continued**

**EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued**

**Firefighters’ Pension Plan**

**Plan Descriptions**

*Plan Administration.* The Firefighters’ Pension Plan is a single-employer defined benefit pension plan that covers all sworn firefighter personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-1) and may be amended only by the Illinois legislature. The District accounts for the Fund as a pension trust fund. The Fund is governed by a five-member pension board. Two members of the Board are appointed by the District President, one member is elected by pension beneficiaries and two members are elected by active fire employees.

*Plan Membership.* At April 30, 2024, the measurement date, membership consisted of the following:

active Plan Members Currently Receiving Benefits	10
active Plan Members Entitled to but not yet Receiving Benefits	5
ctive Plan Members	<u>13</u>
Total	<u>28</u>

*Benefits Provided.* The following is a summary of the Firefighters’ Pension Plan as provided for in Illinois State Statutes.

The Firefighters’ Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter.

## Notes to the Financial Statements

April 30, 2024

---

### NOTE 4 – OTHER INFORMATION – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

##### Firefighters' Pension Plan – Continued

##### Plan Descriptions – Continued

*Benefits Provided – Continued.* Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the firefighter during the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for the pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½ percent for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1<sup>st</sup> after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3 percent or ½ of the change in the Consumer Price Index for the proceeding calendar year.

*Contributions.* Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The District is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the District to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. For the year-ended April 30, 2024, the District's contribution was 30.33% of covered payroll.

*Significant Investments.* At year-end, the Pension Plan does not have any investments over 5 percent of net plan position available for retirement benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

---

**NOTE 4 – OTHER INFORMATION – Continued**

**EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued**

**Firefighters’ Pension Plan – Continued**

**Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation performed, as of April 30, 2024, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	6.50%
Salary Increases	3.75% - 15.79%
Cost of Living Adjustments	3.25%
Inflation	2.25%

Mortality rates were based on the sex distinct raw rates as developed in the PubS-2010(A) study. Mortality improvement uses MP-2019 Improvement Rates applied on a fully generational basis.

**Discount Rate**

The discount rate used to measure the total pension liability was 6.50%, prior year valuation was 6.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund’s fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

## Notes to the Financial Statements April 30, 2024

---

### NOTE 4 – OTHER INFORMATION – Continued

#### OTHER POST-EMPLOYMENT BENEFITS

##### General Information about the OPEB Plan

*Plan Description.* The District's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general and public safety employees of the District. RBP is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

*Benefits Provided.* RBP provides healthcare, dental or vision benefits for retirees and their dependents. The retiree and their dependent pay the full cost of coverage for whichever plan is elected and may continue in retirement past Medicare eligibility.

*Plan Membership.* As of April 30, 2024, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	-
Inactive Plan Members Entitled to but not yet Receiving Benefits	-
Active Plan Members	<u>18</u>
Total	<u><u>18</u></u>

##### Total OPEB Liability

The District's total OPEB liability was measured as of April 30, 2024, and was determined by an actuarial valuation date of the same date

*Actuarial Assumptions and Other Inputs.* The total OPEB liability in the April 30, 2024 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary Increases	3.00%
Discount Rate	4.07%
Healthcare Cost Trend Rates	The initial trend rate is based on the 2023 Segal Health Plan Cost Trend Survey. The grading period and ultimate trend rates selected fall within a generally accepted range.
Retirees' Share of Benefit-Related Costs	100% of projected health insurance premiums for retirees.

**WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS**

**Notes to the Financial Statements  
April 30, 2024**

---

**NOTE 4 – OTHER INFORMATION – Continued**

**OTHER POST-EMPLOYMENT BENEFITS – Continued**

**Total OPEB Liability – Continued**

*Actuarial Assumptions and Other Inputs – Continued.* The discount rate was based on a combination of the expected long-term rate of return on plan assets and the municipal bond rate.

Mortality rates were based on the Sex Distinct Raw Rates as developed in the PubS-2010(A) study improved to 2019 using MP-2019 Improvement Rates. These rates are improved generationally using MP-2019 improvement rates.

**Change in the Total OPEB Liability**

	<u>Total OPEB Liability</u>
Balance at April 30, 2023	\$ 321,587
Changes for the Year:	
Service Cost	61,788
Interest on the Total OPEB Liability	11,352
Changes of Benefit Terms	-
Difference Between Expected and Actual Experience	-
Changes of Assumptions or Other Inputs	(21,723)
Benefit Payments	-
Net Changes	<u>51,417</u>
Balance at April 30, 2024	<u><u>373,004</u></u>

**WARRENVILLE FIRE PROTECTION DISTRICT, ILLINOIS**

**Notes to the Financial Statements  
April 30, 2024**

---

**NOTE 4 – OTHER INFORMATION – Continued**

**OTHER POST-EMPLOYMENT BENEFITS – Continued**

**Sensitivity of the Total OPEB Liability to Changes in the Discount Rate**

The discount rate used to measure the total pension liability was 4.07%, while the prior valuation used 3.53%. The following presents the total OPEB liability, calculated using the discount rate, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher:

	1% Decrease (3.07%)	Current Discount Rate (4.07%)	1% Increase (5.07%)
Total OPEB Liability	\$ 414,194	373,004	335,830

**Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates**

The following presents the total OPEB liability, calculated using current Healthcare Trend Rates, as well as what the total OPEB liability would be if it were calculated using Healthcare Trend Rates that are one percentage point lower or one percentage point higher:

	1% Decrease (Varies)	Healthcare Cost Trend Rates (Varies)	1% Increase (Varies)
Total OPEB Liability	\$ 315,329	373,004	443,293

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended April 30, 2024, the District recognized OPEB expense of \$51,417. Per GASB Statement No. 75, under the Alternative Measurement Method, changes in Total OBEP Liability are immediately recognized as expense, resulting in no deferred outflows of resources or deferred inflows of resources related to OPEB. There were no contributions subsequent to the measurement date.

## **OTHER SUPPLEMENTARY INFORMATION**

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedules – Major Governmental Funds
- Combining Statements – Nonmajor Governmental Funds
- Budgetary Comparison Schedules – Nonmajor Governmental Funds

## **INDIVIDUAL FUND DESCRIPTIONS**

---

### **GENERAL FUND**

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

---

### **SPECIAL REVENUE FUNDS**

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

#### **Audit Fund**

The Audit Fund is used to account for revenues derived from a specific property tax levy and expenditures of these monies for the District's annual audit.

#### **Liability Insurance Fund**

The Liability Insurance Fund is used to account for the operations of the District's liability insurance and risk management activities. Financing is provided by an annual tax levy.

#### **Worker's Compensation Fund**

The Worker's Compensation Fund is used to account for the operations of the District's worker's compensation insurance risk. Financing is provided by an annual tax levy.

#### **Foreign Fire Insurance Tax**

The Foreign Fire Insurance Tax Fund is used to account for the revenues derived from the Foreign Fire Insurance Tax and disbursement of these funds for the benefit, use and maintenance related to the Fire Department.

---

### **CAPITAL PROJECT FUND**

The Capital Project Fund is created to account for all resources used for the acquisition of capital facilities by a governmental until except those financed by Proprietary Funds.

#### **Capital Projects Fund**

The Capital Project Fund is used to account for the acquisition and improvement of District property including infrastructure and general capital assets.

---

## **INDIVIDUAL FUND DESCRIPTIONS**

---

### **PENSION TRUST FUND**

#### **Firefighters' Pension Fund**

The Firefighters' Pension Fund is used to account for the accumulation of resources to be used for retirement annuity payments to employees of the District at appropriate amounts and times in the future. Resources are contributed by employees at rates fixed by law and by the District at amounts determined by an annual actuarial study.

## **STATISTICAL SECTION**

### **(Unaudited)**

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

#### Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources.

#### Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

#### Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
